REPORT OF ACTUARY

Brandon Robertson, Cindy Fraterrigo and Kelly Stolyar from PricewaterhouseCoopers (PwC) were present to discuss the results of the June 30, 2017 actuarial valuations for they Systems.

6/20/17 Valuation Summary -- Among the myriad facts and figures presented in this summary, here are a few of significant interest...

Active membership is stable for both PSRS and for PEERS; headcount, average age, and average service are nearly identical to June 30, 2016.

Retired membership continues to grow. Headcount up 2.9% for PSRS and 5.1% for PEERS.

Market value of assets: Investment returns during FY 2017 were 12.3% net of expenses. Any excess or shortfall in investment returns are phased in over five years for funding purposes.

The actuaries drew attention to the things that an actuarial valuation does not do. It does not predict:

- FUTURE financial soundness of the pension system
- FUTURE investment performance
- FUTURE impact of new members
- FUTURE impact of plan changes
- FUTURE impact of other experience gains and losses.
Set Funding Policy Assumptions--

a) Set Assumed Rate of Return -- The trustees discussed this at length, weighing to pros and cons of maintaining the current 7.75 rate, or dropping it to a more reasonable rate. Trustees Hunt and Bryant spoke in favor of moving the rate to 7.5, while Trustees Hoffman and Steliga favored the 7.6 rate. Eventually, the 7.6 assumed rate of return was adopted.

b) Set COLA Policy -- Once again, the 7 proposed COLA scenarios were coupled with the 4 possible assumed rates of return. With this now set at 7.6, of the 28 original possibilities, only 3 possibilities remained:

*A -- the current policy which would have resulted in 0% COLA in 2018

*F -- Cumulative 2%, beginning 7/1/15, resulting in 2% COLA in 2018

*G -- Cumulative 2%, beginning 7/1/16, resulting in 0% COLA in 2018

All the trustees spoke in favor of finding a way to avoid another year with 0% COLA, and several spoke in favor what they termed "F-lite" -- a compromise solution. After lengthy discussion and diversity of thought, Jason Steliga moved to adopt Option F with the modification that in 2018 the COLA would be set at 1.63 for one year only, and that the CPI-U be reset back to 0 for the following year. Further discussion ensued. The motion passed with only two dissenting votes (Bryant and Hunt).

Set Purchase Interest Rate -- Yvonne Heath moved that the actuarial assumed rate of return be revised from 7.75% to 7.6%. Motion passed unanimously.

Set Contribution Rates for 2018-19 -- Without debate or discussion, the motion passed to maintain the current contribution rates for both PSRS (29%) and PEERS (13.72%).

Set January 2018 COLA -- Beth Knes moved that the 2018 COLA be 1.63%. Motion passed unanimously.
